following particulars of the arrest of Pat Quinlan, in that city, on Thursday:

"On'Thursday Lieutenant McKain, of the Allegheny night police, saw a man whom he took to be Quinlan, on the street. A telegram was sent to Wheeling for further information, and on the information so obtained, it was determined to arrest him. On Thursday svening officer Scot accompanied Lieutenant McKain to the Varieties Theatre, in this city, and there arrested Quinlan as he was coming out of the Theatre. The prisoner did not deny his identity, and was anxious to know the reason of his arrest, inquiring first if any damages were wanted in that woman case. He next inquired, without any preliminary conversation to lead to such a question, "What made them suspect him of having any connection with that Washington county murder?" This question, and some other facts connected with his conversation and demeanor, lead to the suspicion that he may have had some connection with the terrible crime he mentioned. Quinlan says that he reached this city on Tuesday night, having driven here from Wheeling with a horse and huggy. His squippage is at a stable at Butchers' Run now. When a stable at Butchers' Run now. When a stable at Butchers' Run now when a stable at Butchers' Run now when his cell yesterday morning, his hair was of a bright red; a wig lay on the bench. He had also in his possession a pair of false whiskers."

We are not inclined, without some further evidence, to share the suspicion of the Gazette that Quinlan had anything to do with the Sproul murder. Asking the question he did under the circumstances, does not, it seems to inclined, without some further evidence, to share the suspicion of the Gazette that Quinlan had anything to do with the Sproul murder. Asking the question he did under the circumstances, does not, it seems to inclined was the theme of universal interest and inquiry; and it was not unnatural that Quinlan, when arrested, should suppose it was from suspicion of connection with the murder; especially when he found hi

INSURANCE.—The law passed by the Legislature last winter on the subject stir among the insurance companies companies decline to comply with the a deposit with the State Treasurer, for the reason that the law gives them no guaranty for the security of the deposit. They are therefore preparing to withdraw their agencies, and are already refusing to take any more risks. The general understanding is, we believe, that the deposits are required only of the foreign companies. This was no doubt the intention of those in

whose interest the law was passed, but the law itself seems to have a different effect. We quote the substantial pro-visions of the act. The first section visions of the act. The first section provides that "All insurance companies establishing agencies or doing business in this State, except life and accidenta insurance companies" shall pay the State an annual tax of 3 per cent, or their gross receipts. The second sec State an annual tax of 3 per cent. on their gross receipts. The second section proceeds to say that "the said companies shall deposit with the Treasurer of this State, \$25,000 in money or United States securities," as a security to policy holders; and, further, that "the said deposit shall be retained and held for that purpose as long as said companies have outstanding or unexpired policies on property within this State, or unadjusted liabilities." The third section provides that it any company without provides that it any company without complying with this law, "transact business within this State, or make or

ousiness within this state, or make or renew any contract of insurance," such company "and every agent or officer thereof acting in the matter in this State, in behalf of such company, shall for every such offence forfeit not less than twenty nor more than two hundred dollars." draddollars."

One thing seems clear from the wording of this act, that all the companies, home and foreign slike, are put on precisely the same footing. The language "All Insurance companies establishing agencies or doing business in this State" certainly includes all; and the language of the second section, "the said companies shall denosit" resewer on the north side of Quincy "the said companies shall deposit," re-fers to that quoted from the first, and is in effect that "all insurance compa-

ies establishing agencies or doing usiness in this State, shall deposit," The question then for all the companies is, whether they would have any security for their deposits, in the absence of a specific provision. The treasurer would not be responsible to them, of course but we should think the State would be; but if all companies complied, the sum placed in the Treasurer's hands would be very large, perhaps near a million of dollars, while the bond of that officer to the State is only \$20,000; so that the responsibility of the Treasurer to the State would be very insufficient under such circumstances.

stances. It is at less that the stances. The law is at best a very crude one. Construed strictly, it will be seen that it only requires one deposit of \$25,000 to be made by all the companies together, yet it is not to be supposed that was the intention. The next Legislature ought to establish a Committee on the English Language, through whose hands every bill should go before becoming a law, so the laws may mean what they are intended to.

We suppose there isn't a business in town that gets its rent as cheap. Whether the business done was sufficient to pay the rent we can't undertake to conjecture.

NEW FREIGHT ARRANGEMENT.—An arrangement has been made by which all goods shipped to this point over the Pennsylvania Central and Cleveland & Pittsburgh Railroads by "the Union Line," are delivered to our business men at their doors. Heretofore they have been delivered at Bridgeport sta-

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil compan ons, or at school, the effects of which are nightly felt, even when asleep, and, if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately. What a pity that a young man, the hopeo his country, the pride of his parents, should be suatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such person must, before contemplating
